

PORTABLE BEDSIDE SHOWER SYSTEM

EMPOWERING DIGNITY
THROUGH INNOVATION
IN BEDSIDE CARE

GOOD DESIGN AWARD 2024
GOLD AWARD

REVOLUTIONIZING PERSONAL HYGIENE FOR BEDRIDDEN PATIENTS

The Switle BODY is a first-of-its-kind portable bedside shower system that enables full-body cleansing without moving patients from their beds. Designed with both caregiver convenience and patient dignity in mind, this Japanese-engineered innovation transforms hygiene care—whether in the home, clinic, or long-term care facility.

WHY CHOOSE SWITLE BODY?

- All-in-One System:** Sprays warm water, suctions waste, and keeps bedding dry—no plumbing needed.
- Low-Mess & Water-Efficient:** Uses just 1L with built-in suction to minimize cleanup.
- Fast, Easy Setup:** Lightweight (12 lbs) and operable by one caregiver.
- Comfort-Controlled:** Adjustable water temp (100°F–113°F) for a soothing wash.
- Skin-Safe Design:** Soft, replaceable sponge heads protect delicate skin and reduce infection risk.

Smart Waste Separation

Innovative water-vapor separation technology directs used water into the dedicated Dirty Water Tank.

Hygienic Design

Independent, detachable brush heads prevent bacterial growth and ensure a clean bathing experience.

PORTABLE BEDSIDE SHOWER SYSTEM

HOW IT COMPARES TO TRADITIONAL BED BATHS

Features	Switle BODY	Bed Bath
Water Use	~1 Liter	Multiple Basins
Setup Time	5 Minutes	15–30 Minutes
Required Staff	1 Caregiver	2 Caregivers
